WELCOME TO PACKRITI

At Packriti, we see packaging as more than just a way of presenting something. It is a part of every occasion — something that carries thought, adds warmth and makes the moment feel complete.

Our creations draw from the colours, artistry and traditions that have shaped our culture over generations, brought together with a simple, contemporary approach. We thoughtfully bring these familiar elements into designs that feel rooted, relevant and at home in today's celebrations.

We choose paper-based, recyclable materials and consciously stay away from plastic, guided by a simple thought — from Mother Earth, back to Mother Earth. It is our way of creating thoughtfully while being mindful of what we leave behind.

From celebrations and festivals to weddings, businesses and everyday occasions, we hope to be a dependable part of your packaging journey — creating things that are thoughtful, practical and made to be a part of your moments.
